The above mentioned game is approved for use in New Jersey as an amusement game, as defined in the Amusement Game Licensing Law, N.J.S.A. 5:8-100 et seq. ("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This approval is based upon information supplied by the applicant at the time of application for certification. The game must be operated in accordance with the specifications submitted and the terms of this certification. Any modification of the manufacturer's specifications or the specified method of play immediately voids this certification.

It is unlawful to operate any amusement game in the State of New Jersey without a valid certification.

Snack Attacker is a candy crane played by having the claw placed in the desired position with the use of the joystick. The button on the joystick is pressed and the claw drops into the playfield, attempting to grab an item or items for retrieval. The player has a set time limit to decide where to drop the claw. After the predetermined time period, the claw will drop automatically. If no prize is retrieved, the player will make another attempt until a prize is selected.

This certification is conditioned upon the following:

- 1.) The maximum price to play shall not exceed the values set forth in N.J.A.C. 13:3-3.4.
- 2.) No prize shall be displayed that would exceed the manufacturers recommendation for claw mechanism capability.
- 3.) Claw strength shall be set at highest level (10), so that the prizes displayed will not be released if grasped properly.
- 4.) Game play time mode shall remain at default setting (15 seconds).
- 5.) Number of replay attempts shall be set at the maximum (99).
- 6.) Game shall be installed and maintained according to manufacturer specifications.

This certification is not a license to operate the captioned gambling device. The device may only be operated in a location specifically approved for the operation of amusement games pursuant to the Law and Regulations.

The Commission reserves the right to suspend, revoke or modify this certification upon notice to the manufacturer and/or applicant.
